Frontend

Base cap (blue)

9,99 €

inkl. 19% MwSt. zzgl. Versand

You are able to look like clever and smart - but with this base cap only.

Data Sheet	
material	cotton
weight	1 kg

SKU (stockkeeping unit): 2003

into the caddy

Illustration 2: The item on Quick Shop (sample)

The screenshot shows an eBay listing for a 'Base cap (blue)'. The listing includes a product image, a price of 9.99 €, and a description. The description mentions that the cap is made of cotton and weighs 1 kg. It also includes a 'Data Sheet' table with the following information:

Data Sheet	
material	cotton
weight	1 kg

The listing also features a 'SKU (stockkeeping unit): 2003' and a '1' in a quantity box. The bottom of the listing shows the 'into the caddy' button.

Introduction

What does it do?

Deal! is the Quick Shop interface for the marketplace ebay. You can manage all items with TYPO3 and publish it on ebay. Amazon is under construction¹.

Deal!

- is extending the TYPO3 Quick Shop with an interface for the marketplaces amazon² and ebay
- enables you, to manage all your items with Quick Shop
- publishes your items at the marketplaces amazon³ and ebay
- updates your item on amazon⁴ and ebay automatically, if you update your item in the Quick Shop
- enables you to configure basic properties of your item for the marketplace ebay.

What does it not do?

Deal! isn't a web interface for managing items at amazon or at ebay in principle.

- It doesn't substitute neither the amazon interface nor the ebay interface.

Deal! isn't suited to manage items with complex specifications like

- complex calculated shipping costs
- cross selling
- variants

Limitations

Synchronisation

Items are synchronised one way only – from the Quick Shop to amazon and on ebay:

- If you update your item in the Quick Shop, Deal! will update this item on amazon⁵ and on ebay automatically.

Items aren't synchronised the way back – nor from amazon and neither from ebay to the Quick Shop:

- If an item is sold in your Quick Shop, there isn't any effect to a marketplace like ebay.
- If an item is sold on a marketplace, there isn't any effect to your Quick Shop.
- If you change the properties of an item in the marketplace like ebay, this hasn't any effect to the properties of the item in your Quick Shop

ebay Marketplaces

Each ebay marketplace has different categories⁶ and different shipping service costs.

Categories and shipping service costs are ready to use for:

- Germany - EBAY-DE/EUR (77)
- US - EBAY-US/USD (0)

See details at "Import the values for your marketplace" on page 21 below.

¹ Amazon is under construction. I'm looking forward for a contract.
² dito
³ dito
⁴ dito
⁵ dito
⁶ Near by 20.000 records per marketplace

Requirements

ebay

You need ebay accounts. See "Requirements" on page 20 below.

PHP

You need a PHP with a running Curl modul (php curl).

Quick Shop

You need the extension Quick Shop¹.

TYPO3 Versions

Deal! is developed for and tested with

- TYPO3 6.1

Maybe it is running too in

- TYPO3 4.5, 4.6, 4.7, 6.0 and 6.2²

¹ See: <http://quick-shop.de/>. You can use Deal! for other shops too.

² Please send your feedback to <http://wildt.at.die-netzmacher.de/>

Installation

Install and enable Deal!¹

Test it!

You can test Deal! immediately – without configuring the Extension Manager. See section "Test it!" on page 8 below.

Extension Manager

Configure Deal! with the Extension Manager.

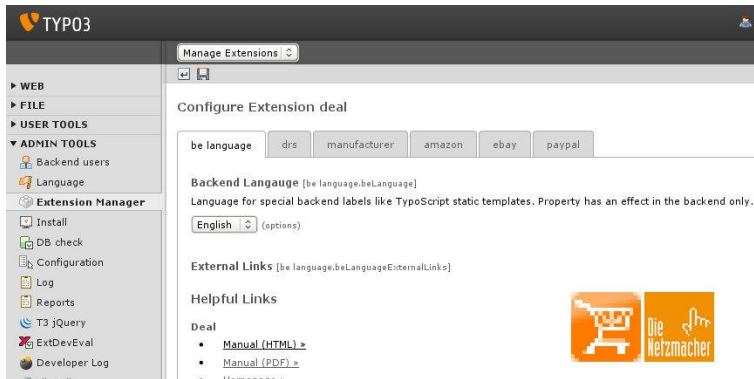

Illustration 4: Deal! extension manager

See details in the section "Extension Manager" on page 13 below.

Import values for your ebay marketplace

You are importing the needed values for your ebay marketplace supported by another Deal! Extension.

See details at "Import the values for your marketplace" on page 21 below.

¹ <http://typo3.org/extensions/repository/view/deal/>

Test it!

You can test Deal! immediately – without configuring the Extension Manager.

Page and plugins

Test Deal! and ebay with the developer plugins:

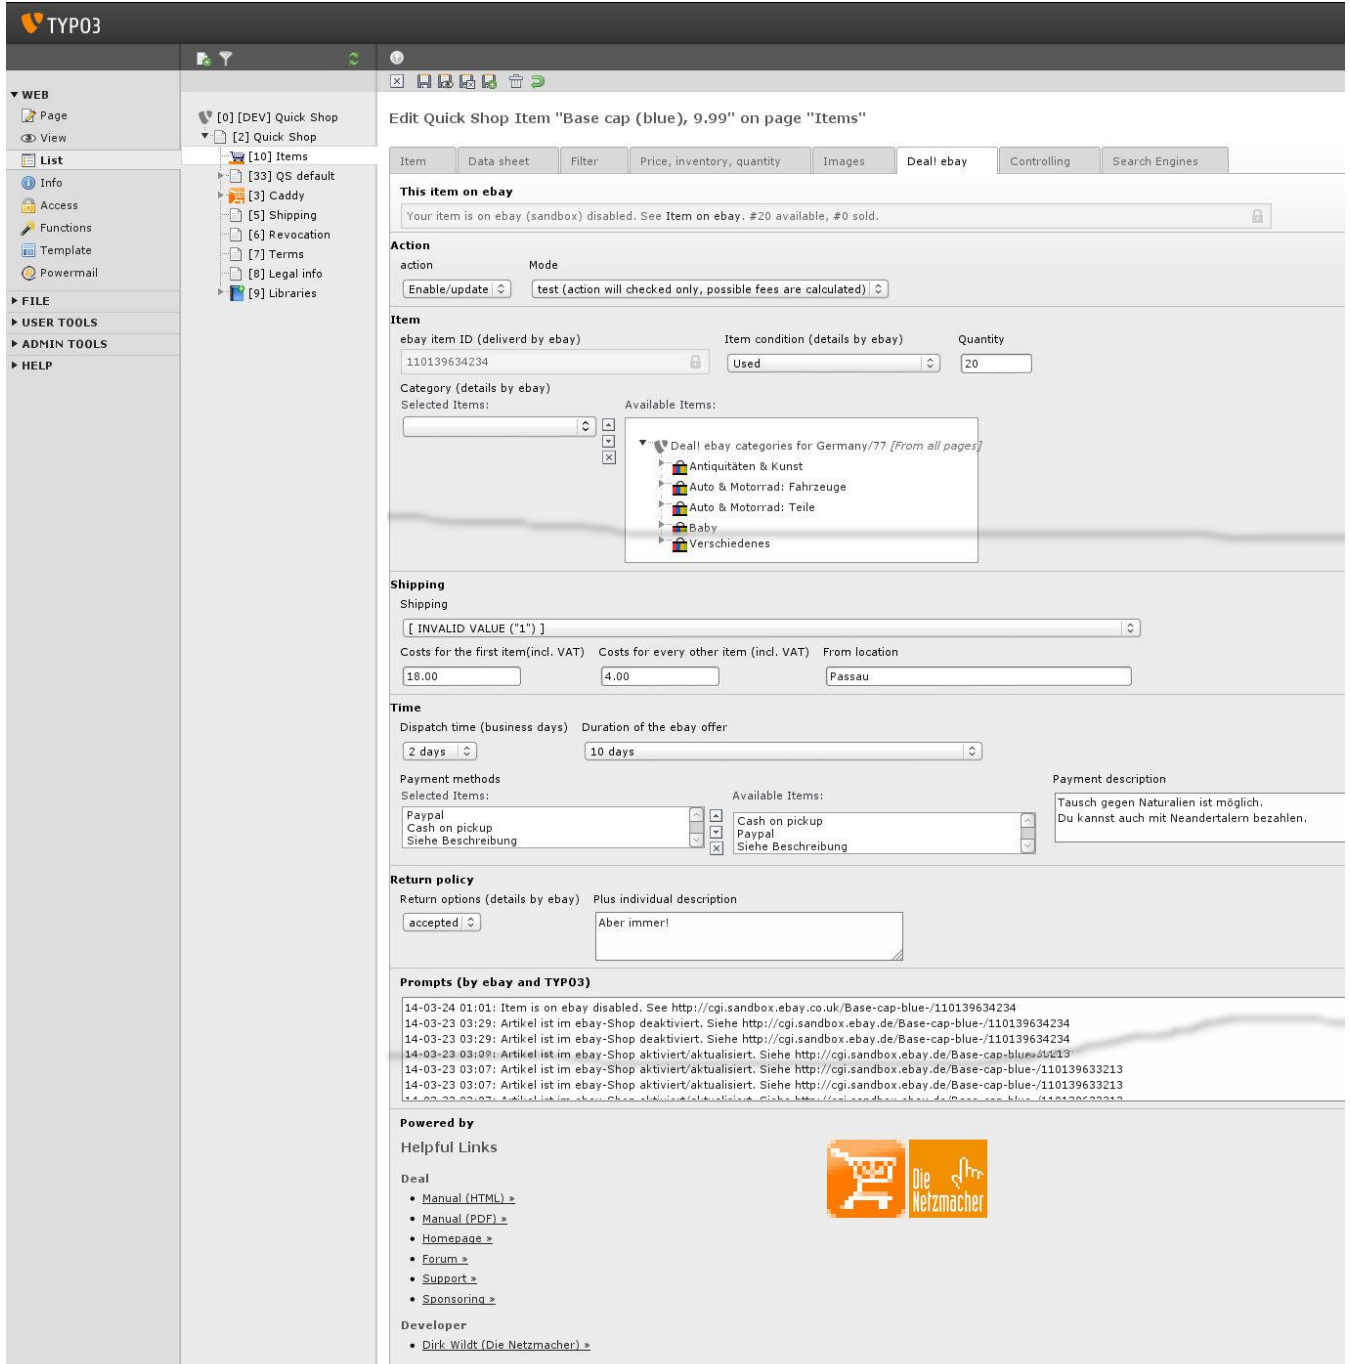

- Add a new page Deal!
- Add one of the both ebay plugins
 - Deal! [DEV] ebay 3 items
 - Deal! [DEV] ebay categories
- Add one of the both ebay Templates
 - Deal! [DEV] ebay 3 items
 - Deal! [DEV] ebay categories
- Configure the Templates with the TypoScript Constant Editor
 - [DEAL - DEV - EBAY 3 ITEMS]
 - [DEAL - DEV - EBAY CATEGORIES]

See details in the section "Plugins" on page 10 below.

Enable or update an item

[Deal! ebay] (Quick Shop)

A Quick Shop item has the new tab [Deal! Ebay], after enabling the Deal! extension. See illustration below.

The screenshot shows the TYP03 interface with a sidebar on the left containing navigation links: WEB, List, Info, Access, Functions, Template, Powermail, FILE, USER TOOLS, ADMIN TOOLS, and HELP. The main content area displays the 'Edit Quick Shop Item' form for 'Base cap (blue), 9.99\"

Illustration 5: The tab [Deal! ebay] in the flexform of a Quick Shop item

This is the view for administrators.

Please configure the flexform view for editors by configuring a backend user group.

Enable or update an item

Action > Action [Enable/Update]. Action > Mode [Live]. Save the form.

Details

See "Flexform" on page 14 below.

Plugins

You don't need any plugin for use Deal!

Plugins are for testing and development only.

amazon

Not available.¹

¹ Amazon is under construction. I'm looking forward for a contract.

ebay

You don't need any ebay plugin for enable or update a Quick Shop item on an ebay marketplace.
Plugins are for testing and development only.

Deal! [DEV] ebay 3 items

Deal! [DEV] ebay 3 items for search with: TYPO3

TypoScript Constant Editor

- You configure the properties supported by TypoScript.
- See Constant Editor -> Category: [DEAL - EBAY DEV - GETTING STARTED]

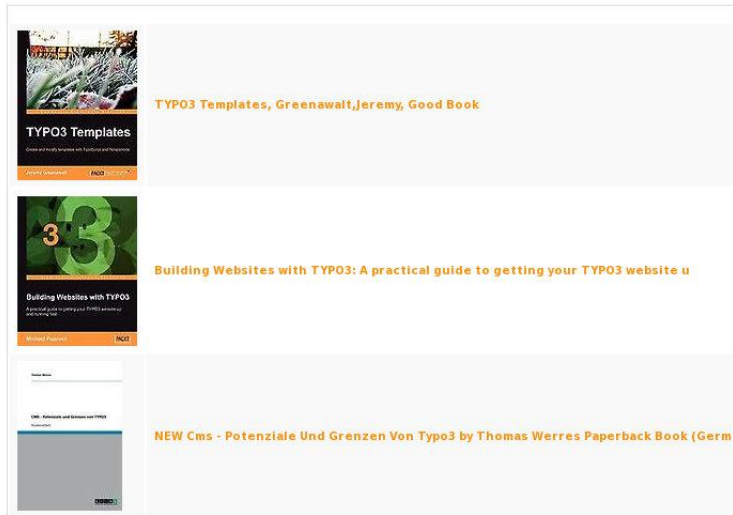

Illustration 6: Plugin Deal! ebay 3 items

Functionality

- These plugin displays 3 items from the ebay shop.
- It is a quick and easy way to check, if you can use the ebay shop within TYPO3 in principle.

Properties

- Search word for the items (like TYPO3)
- Maximum amount for the items price
- ebay shop (like EBAY-DE or EBAY-US)
- currency (like EUR or USD)

TypoScript Constant Editor

- You configure the properties supported by TypoScript.
- See Constant Editor -> Category: [DEAL - DEV - EBAY 3 ITEMS]

Requirements

- You need your application ID from ebay. See "Requirements" on page 20 below.

Deal! [DEV] ebay categories

Deal! [DEV] ebay categories

Configuring

- You configure the properties supported by TypoScript.
- See Constant Editor -> Category: [DEAL - EBAY DEV - GET CATEGORIES]

Interface

Quick Shop

The interface for Quick Shop consists of the following files and parts:

- `ext_tables.php`
 - Requires `ext_tables/tx_quickshop_products/marketplaces/ebay/ext_tables.php`
- `ext_tables.sql`
 - Fields for extending the Quick Shop
 - MM tables needed by Deal! for the Quick Shop
- `ext_tables/tx_quickshop_products/marketplaces/ebay/ext_tables.php`
 - Contains the TCA configuration (flexform configuration).
 - Quick Shop fields are mapped in the "TCA ctrl" section, which are needed by Deal!
See: "TCA ctrl" on page 16 above.
- `ext_tables/tx_quickshop_products/marketplaces/ebay/locallang_db.xml`
 - Contains the localisation for the backend forms.

Other Shops

You are welcome, to use Deal! for any other shop.

Please take the Quick Shop as a draft for an integration of another shop. See "Quick Shop" on page 19 above.

Marketplaces

amazon

Under Construction

Amazon is under construction. I'm looking forward for a contract. If you are interested, please send an e-mail to

- <http://wildt.at.die-netzmacher.de/>

Costs¹

BE AWARE: all declarations are without any warranty!

A professional sales account costs round about 45 EUR a month.

You will have further costs for e-payment.

Requirements

You need a professional sales account. See

- en: <http://services.amazon.co.uk/services/sell-online/features-and-benefits.html>
- de: <http://services.amazon.de/programme/online-verkaufen/so-funktioniert.html>

UPC-Code

Your items need an Universal Product Code (UPC). See:

- http://de.wikipedia.org/wiki/Universal_Product_Code

ebay

Costs²

BE AWARE: all declarations are without any warranty!

If you are enabling or updating an item on ebay, you can have costs.

You will have further costs for e-payment.

You can eval the costs by Deal!, before you publish an item. Evaluation is without warranty.

Requirements

Accounts

You need the ebay accounts:

- ebay developer program³
- ebay shop⁴
- ebay sandbox⁵ – for testing Deal! on ebay without any fees

Keys

- <https://developer.ebay.com/DevZone/account/default.aspx>

Token

- <https://developer.ebay.com/DevZone/account/tokens/default.aspx>

1 Without any warranty!

2 Without any warranty!

3 <https://developer.ebay.com/base/membership/signin/>

4 <https://signin.ebay.com/>

5 <https://signin.sandbox.ebay.com/>

Import the values for your marketplace

Supported marketplaces

Deal! provides categories and shipping service costs for each marketplace with an extra extension.

- Germany - EBAY-DE/EUR (77)
 - Deal! ebay values for marketplace Germany/77
 - Import the needed ebay values for the German marketplace! Import is done while enabling this extension.
 - See: http://typo3-deal.de/typo3conf/ext/deal_ebay_000_us/doc/manual.pdf
- US - EBAY-US/USD (0)
 - Deal! ebay values for marketplace US/0
 - Import the needed ebay values for the US marketplace! Import is done while enabling this extension.
 - See: http://typo3-deal.de/typo3conf/ext/deal_ebay_000_us/doc/manual.pdf

Non supported marketplaces

If you like to integrate a non supported marketplace into Deal!, please

- make a copy of the extension deal_ebay_000_us to deal_ebay_xxx_yy
- import the categories and shipping service codes to this extension
- maintain the Deal! files:
 - ext_tables.php
 - ext_tables.sql
 - locallang_db.xml
 - tca.php

You get a list of the needed categories by the Deal! plugin. See: "Deal! [DEV] ebay categories" on page 12 above.

You get a list of the shipping service codes at ebay.

See: <http://developer.ebay.com/DevZone/XML/docs/Reference/ebay/types/ShippingServiceCodeType.html>

If I should integrate the values for the marketplace, please send me an e-mail at <http://wildt.at.die-netzmacher.de/>. This support isn't without fees.

Development

You can test requests supported by the API Test Tool:

- <https://developer.ebay.com/DevZone/build-test/test-tool/default.aspx>

Further Information

Credits

Made in Nature

The German TYPO3 agency Made in Nature has contracted

- a part of the Deal! Extension

Website

- <http://made-in-nature.de/>

Other extensions published by Die Netzmacher

-  +AOE Linkhandler Configurator: Configure the AOE linkhandler supported by userinterfaces. Out-of-the-box templates for cal, org, tt_news and tt_products. Don't edit page TSconfig any longer.
<http://typo3.org/extensions/repository/view/linkhandlerconf/>
-  autositemap: A smart site-map optimised for the footer. It groups menus in columns. Great menus will get two columns. Configuration is based on TypoScript HMENU.
<http://typo3.org/extensions/repository/view/autositemap/>
-  Browser – TYPO3 without PHP. Develop your TYPO3 extension 8 times faster! You need one line TypoScript for a result list with a search form, a record browser and an index browser. Images are wrapped self-acting. SEO, Search Engine Optimization, is integrated. <http://typo3.org/extensions/repository/view/browser/>
-  Caddy – the TYPO3 shopping cart. You can use it for your own needs. You need a database with products or any other items only. You can install Caddy out of the box with one mouse click – see Quick Shop below.
<http://typo3.org/extensions/repository/view/caddy/>
-  Deal! – TYPO3 Quick Shop interface for the marketplace ebay. Manage all items with TYPO3 and publish it on ebay. Amazon is under construction.
<http://typo3.org/extensions/repository/view/deal/>
-  Flip it! offers lovely and smooth page flip transitions. It enables you to run over pages in PDF documents like in a real magazine. It is based on flash. Flipt it! can convert PDF documents to swf files automatically.
<http://typo3.org/extensions/repository/view/flipit/>
-  Green Cars (Grüne Autos) - Database optimized for ecological cars. It is a case study and demonstrates, how to get a complex database with the browser (see above) in three hours only.
http://typo3.org/extensions/repository/view/green_cars/
-  Jobmarket is a catalogue with job offers. Views, the a-z-browser, the page-browser, the search, social bookmarks and a lot of other stuff can configured by the Browser plugin with the mouse. Job Market hasn't any PHP code, it should be easy to adapt it to your needs.
http://typo3.org/extensions/repository/view/job_market/
-  Majordomo: For subscribing to and unsubscribing from a majordomo mailing list.
<http://typo3.org/extensions/repository/view/majordomo/>
-  Organiser – TYPO3 for the lobby and the organisers. Handle news, events, staff, headquarters, locations, workshops and a calendar with one extension. Sell online tickets! Install the Organiser with one mouse click!
<http://typo3-organiser.de/>
-  Quick Shop – the fastest shop in the history of TYPO3. Install it with one mouse click! Quick Shop is based on the browser (see above) and powermail.
<http://typo3-quick-shop.de/>
-  PDF Controller: Easy to install. Add to your HTML page the PDF-controller-button. Link from the button to the controller. Adjust the controller by mouseclicks. The PDF Controller supports CSS 3.
<http://typo3-pdfcontroller.de/>
-  Radial Search (Umkreissuche) – Enable the browsing through your data by geo location. 'Your data must have a latitude and a longitude. Address data can geocoded automatically by the Browser - TYPO3 without PHP.
<http://typo3.org/extensions/repository/view/radialsearch/>
-  Route – Publish your routes with GoogleMaps or OpenStreetMap. Routes have points of interest (POI). You can categorise and filter both: routes and POI. Address data can geocoded automatically.
<http://typo3.org/extensions/repository/view/route/>
-  seo_dynamic_tag: Search Engine Optimization for the title tag, the canonical tag and the meta tags author, description and keywords. Configuration by a user interface.
http://typo3.org/extensions/repository/view/seo_dynamic_tag/
-  TSconfig Pages and Users by extManager (extkey: tsconf): Configure the the eight most commonly used TSconfig porperties with the mouse - like page tree uids, activated extended view, activated clipboard, ...
